wega France to Exhibit at BioFIT & MedFIT 2026 in Marseille

Building the Bridge Between Business and IT for Life Sciences, Healthcare and Specialty Chemistry.

wega France will participate in BioFIT & MedFIT 2026, taking place on **10–11 December** at Parc Chanot, Palais de l'Europe in Marseille.

Participation in BioFIT & MedFIT 2026 will provide an opportunity for wega France to connect with organizations across the life sciences ecosystem, exchange perspectives on digital transformation and explore how technology can support evolving scientific, operational and business needs.

Visitors are invited to meet the wega France team at booth B6 to discuss their digitalization and informatics challenges and **discover how wega can help bridge the gap between business and IT.**

About wega

wega is an independent consulting company headquartered in Basel, Switzerland, specializing in digitalization for the life sciences and related industries. With **more than 30 years of experience**, wega combines scientific, business, process and IT expertise to support customers across **Europe** in addressing complex digital challenges.

wega is a service provider of choice for digital transformations in Life Science, Pharma, Healthcare, and Specialty Chemistry organizations. The unique combination of knowledge of both IT, business processes and regulations across the value chain from R&D to QC and manufacturing enables them to fulfill their demanding mission: **"Building the bridge between business and IT"**.
